## PROFESSIONAL

**2012** NEW PRODUCT GUIDE

## MASTERLINK LIVE SERIES

The MasterLink Live 16 and MasterLink Live 24 seamlessly integrate the iPad's beautiful touchscreen display to bring you an incredible mixing experience. Both are complete "front-of-house" solutions, bridging the gap between high-quality analog consoles and sophisticated DSP technology. The MasterLink series offers channel compression, three-band semi-parametric EQ, four aux sends, four group buses, built-in Alesis digital effects and the unprecedented capability of the Alto Professional Live Drive App.

### MASTERLINK LIVE 16

#### 16-CHANNEL MIXER WITH DOCK for iPad

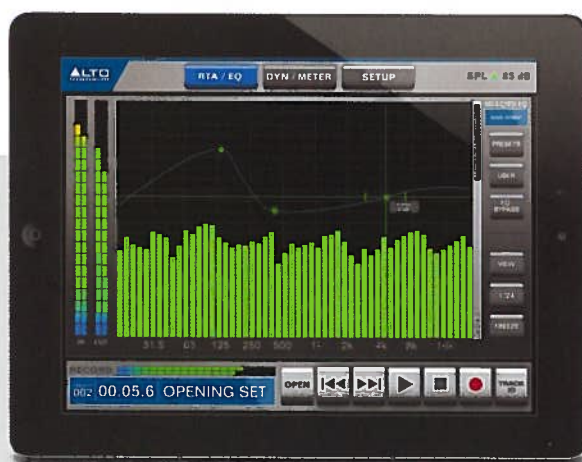

- Seamlessly integrates iPad with a fitted enclosure & 30-pin dock
- Works with iPad and iPad 2
- Process and record your main mix with Alto Professional's Live Drive App (downloadable from App Store)
- Live Drive App offers real-time audio analysis, compression, EQ and more
- Dedicated analyzer/talkback microphone input
- 16 input channels: 10 mono, 3 stereo
- 10 high-headroom low-noise microphone preamps
- Three-band EQ with sweepable mid-frequency on all mono channels
- 10 independent channel compressors for dynamic control
- Built-in Alesis digital effects processor with reverb, delay, chorus and more

### MASTERLINK LIVE 24

#### 24-CHANNEL MIXER WITH DOCK for iPad

- Seamlessly integrates iPad with a fitted enclosure & 30-pin dock
- Works with iPad and iPad 2
- Process and record your main mix with Alto Professional's Live Drive App (downloadable from App Store)
- Live Drive App offers real-time audio analysis, compression, EQ and more
- Dedicated analyzer/talkback microphone input
- 24 input channels: 16 mono, 4 stereo
- 16 high-headroom low-noise microphone preamps
- Three-band EQ with sweepable mid-frequency on all mono channels
- 16 independent channel compressors for dynamic control
- Built-in Alesis digital effects processor with reverb, delay, chorus and more

## LIVE DRIVE APP

### MAIN MIX ANALYZER/PROCESSOR/RECORDER APP for iPad

Alto Professional's Live Drive App brings an entire rack of outboard gear to your iPad's touchscreen interface. Manage your main mix with a simplicity, elegance and command never before possible. Control the processing of your main mix, get real-time audio analysis, and record your entire gig—the Live Drive App eliminates the need for racks and racks of cumbersome gear, giving you main mix control that is completely integrated with your MasterLink Live 16 or MasterLink Live 24.

### FEATURES

- Real-time audio analysis
- 12-band parametric EQ
- Compressor/limiter
- Two-channel audio recording capability
- Built-in programmable SPL meter

Works  
with most  
Bluetooth devices!

# TRUESONIC

## WIRELESS SERIES

TRUESONIC Wireless loudspeakers provide musicians and live sound engineers with exceptionally clean, transparent sound from wired or wireless sources. Whether used in a permanent sound reinforcement installation or as portable PAs, TRUESONIC Wireless live sound speakers stand apart from the competition because of their uncompromising accuracy, wireless capability and exceptionally high watt-to-dollar ratio.

### TS115W

#### 800 WATT 2-WAY 15" SPEAKER WITH WIRELESS CONNECTIVITY

- Built-in Bluetooth® A2DP wireless technology\*
- Stream audio wirelessly from any Bluetooth-compatible device
- Use as traditional PA loudspeaker or floor wedge monitor
- 800 Watts Class D power
- 15" low frequency transducer, 1" neodymium driver
- Two mic/line combo inputs with independent volume controls
- XLR output to link speakers
- Lightweight, trapezoidal cabinet with handles
- Stand/pole-mountable or flyable

### TS112W

#### 800 WATT 2-WAY 12" SPEAKER WITH WIRELESS CONNECTIVITY

- Built-in Bluetooth® A2DP wireless technology\*
- Stream audio wirelessly from any Bluetooth-compatible device
- Use as traditional PA loudspeaker or as floor wedge monitor
- 800 Watts Class D power
- 12" low frequency transducer, 1" neodymium driver
- Two mic/line combo inputs with independent volume controls
- XLR output to link speakers
- Lightweight, trapezoidal cabinet with handles
- Stand/pole-mountable or flyable

## iPA MUSIC SYSTEM

### 400 WATT POWERED SPEAKER for iPad

Just load your iPad into the iPA Music System, run your app of choice and crank up the volume. The iPA Music System's internal power amplifier will fill your home, club, or event with crystal-clear sound. An Alto Professional ADM10 cardioid microphone and 10' cable are included, and you can even expand your iPA Music System by linking to an additional speaker (not included).

**Dock your iPad and rock the party with the iPA Music System!**

- Two-way speaker system with 400 Watts of peak power
- Fully integrated Universal Dock for iPad
- Works with iPad and iPad 2
- Includes Alto Professional ADM10 dynamic mic and 10' cable
- Integrated mixer and high-efficiency power amp
- 10" (254mm) low-frequency transducer
- Compact, lightweight design for easy transport
- 36mm socket for mounting on a speaker stand
- Rigging points for suspending overhead
- Designed and tuned in the USA

## TRUESONIC SERIES

**Accuracy. Power. Portability. Affordability.**

TRUESONIC loudspeakers provide exceptionally powerful sound for musicians and live sound engineers alike. Each one features an ultra-pure signal path, super-efficient driver design and modern Class D amplification to deliver precise reproduction of deep lows, crystal-clear highs and smooth mid range. With TRUESONIC loudspeakers, what you put in is exactly what you get out.

### **TS115A**

#### **ACTIVE 800 WATT 2-WAY 15" LOUDSPEAKER**

- 800 Watts Class D power
- 15" low-frequency transducer, 1" neodymium driver
- Two mic/line combo inputs with independent volume controls
- XLR output to link speakers
- Lightweight, trapezoidal cabinet with handles

### **TS112A**

#### **ACTIVE 800 WATT 2-WAY 12" LOUDSPEAKER**

- 800 Watts Class D power
- 12" low-frequency transducer, 1" neodymium driver
- Two mic/line combo inputs with independent volume controls
- XLR output to link speakers
- Lightweight, trapezoidal cabinet with handles

### **TS110A**

#### **ACTIVE 600 WATT 2-WAY 10" LOUDSPEAKER**

- 600 Watts Class D power
- 10" low-frequency transducer, 1" neodymium driver
- Two mic/line combo inputs with independent volume controls
- XLR output to link speakers
- Lightweight, trapezoidal cabinet with handle

### **TSSUB18**

#### **18" ACTIVE SUBWOOFER**

- 1200 Watts Class D power
- Powerful 18" low-frequency long-excursion driver
- Stereo inputs: mic/line left channel, XLR right channel
- Stereo XLR outputs: left link, right mono, internal 120Hz crossover on thru
- 18mm birch plywood vented cabinet with metal grille and recessed handles

### **TSSUB15**

#### **15" ACTIVE SUBWOOFER**

- 1200 Watts Class D power
- Powerful 15" low-frequency long-excursion driver
- Stereo inputs: mic/line left channel, XLR right channel
- Stereo XLR outputs: left link, right mono, internal 120Hz crossover on thru
- 18mm birch plywood vented cabinet with metal grille and recessed handles

### **TSSUB12**

#### **12" ACTIVE SUBWOOFER**

- 600 Watts Class D power
- Powerful 12" woofer with 2.5" voice coil and double-ventilation
- Stereo Inputs: mic/line left channel, XLR right channel
- Stereo XLR outputs: left link, right mono, internal crossover on thru
- Compact 18mm birch cabinet with metal grille and handles

## ZMX SERIES

The ZMX series of live sound mixers are designed to meet the needs of both musicians and live sound engineers. Whether you're a singer-songwriter looking for the perfect mixer for coffeehouse gigs, or a professional live sound engineer embarking on a national tour there's a ZMX mixer available to bring it all together. ZMX mixers offer multi-bus routing, on-board digital effects and integrated USB audio interfaces, making them perfect for use in capturing high-quality digital recordings of your performances.

### ZMX122 FX

#### 8-CHANNEL COMPACT MIXER WITH EFFECTS

- 12 total inputs including XLR jacks with phantom power on channels one through four
- Four mic input channels with gold-plated XLR and balanced line inputs
- Two stereo input channels with balanced TRS jacks
- Extremely high headroom offering extra dynamic range
- Three-band EQ on each channel
- On-board Alesis digital effects processor
- Three-band EQ on each mono and stereo channel
- Two aux sends per-channel for external effects and monitoring
- Two-bus design with main and control room 1/4" stereo outputs

### ZMX862

#### 6-CHANNEL COMPACT MIXER

- Eight total inputs including XLR jacks with phantom power on channels one and two
- Two mic input channels with gold-plated XLR and balanced line inputs
- Two stereo input channels with balanced TRS jacks
- Extremely high headroom offering extra dynamic range
- Three-shelf EQ on each mono and stereo channel
- Two aux sends per-channel for external effects and monitoring
- Two-bus design with main and control room 1/4" stereo outputs

### ZMX52

#### 5-CHANNEL COMPACT MIXER

- Eight total inputs including an XLR jack with phantom power and EQ on channel one
- 1/4" main, tape, headphone and aux outputs for flexible routing and monitoring
- Compact design, perfect for musicians looking for portability and quick set-up
- One mic input channel with gold-plated XLR and balanced line input
- Two stereo input channels with balanced TRS jacks
- Extremely high headroom offering extra dynamic range
- Ultra-low noise, discrete mic preamps with +18V phantom power
- Balanced inputs for highest signal integrity and low-noise operation
