

# PRO-14RC

## 3.5" In-Ceiling Speaker

### TRUE REFERENCE ACOUSTICS IN A SMALL PACKAGE

Using the same acoustic components and design as the highly acclaimed Reference box speaker line, the Professional Reference Architectural series perfectly combines the aesthetics of an architectural speaker with the pure performance and dynamic voicing of the Klipsch Reference series. With a 3.5" IMG woofer and a .75" Aluminum Dome tweeter, the Pro-14C brings dynamic, powerful, detailed Klipsch Reference sound to your distributed audio or home theater system in a small aperture in-ceiling package.

### PATENTED SKYHOOK® TOOL-FREE INSTALLATION SYSTEM

This exclusive installation system engages the dog legs automatically when the speaker is inserted into the cutout hole with a preset clamping force, eliminating the possibility of overtightening. If dealing with an uneven space, a 1/4 turn of each dog leg screw achieves a more flush finish. This fast, easy installation system reduces install time by up to 75%.

### ALL NEW, BEZEL-FREE MAGNETIC GRILLE

A completely redesigned powercoated magnetic steel grille eliminates the bezel for seamless, pristine integration into the living space.

### ROUND AND SQUARE GRILLES INCLUDED

Architectural speakers not only need to sound great, but blend in seamlessly with even the most luxurious interior designs. The Professional Series Reference Premiere in-ceiling speakers include both round and square grilles in the box, so they look great in any space right out of the box.

### PVC PAINT SHIELD INCLUDED

Also included is a magnetic PVC paint shield that can be used to cover the speaker module to protect it from paint or construction dust during renovations or remodels.

### SPECIFICATIONS

|                         |   |
