

Headshell

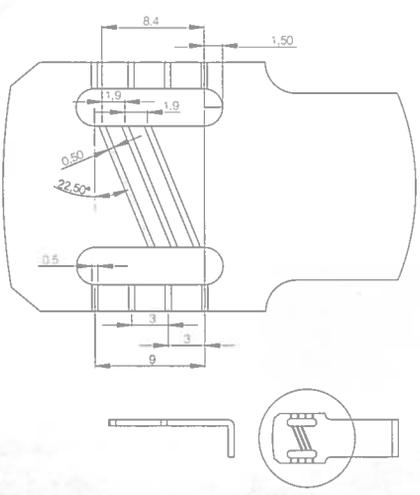

Ortofon | Serato Headshell

Additional graphics for easy mounting
An ergonomic design

Ortofon-Serato Headshell Characteristics

The Ortofon-Serato SH-4 custom designed headshell combines both style and functionality for DJs of all types. A great balance between value and functionality. An ergonomic design with a long finger that is easy to pick up. Additional graphics that allow for easy mounting. The Ortofon Serato SH-4 headshell provides respectable quality at a respectable price.

Ortofon developed a unique cartridge for the DJ market which had the best possible features for the high demands of the performance DJ. A reliable and stable signal path provided to secure the signals from Serato (time-coded vinyl), when used with Serato Scratch Live.
