STAGE EQUIPMENT FROM ADAM HALL

Adam Hall has been your specialist for professional stage equipment since 1975. Whether for use at open-air events, in theatres, studios, community and general-purpose halls, trade shows or in the gastronomy sector, we supply a comprehensive assortment of useful event equipment for any event and for a broad range of requirements.

Adam Hall Stage Equipment offers a huge selection of stage gauze, 19" equipment and stage systems. Attachment parts such as steps, handrails, side parts and wheelchair ramps offer additional configuration options. Duct tape, foam and stage molton, right up to measuring instruments, DEKRA-approved cable protection systems and BVGC 1 safeties complete the programme.

Adam Hall Stage Equipment means that you are perfectly equipped - with high availability from a single source in the reliable Adam Hall quality that naturally conforms to event equipment standards and regulations.

READY TO ORDER?

Please feel free to give us a call. On the back of this catalogue you will find contact details for the various sales teams around the globe. Your respective sales representative is available Mon. – Fri. and is ready to help you. Further details can be found in the 'Contact' section of our website.

DEFENDER® CABLE PROTECTION SYSTEMS – THE INDUSTRY & EVENT STANDARD

Originally developed to guard electrical cables and prevent tripping hazards at rock concerts Defender® cable protectors have become the standard in a wide variety of industrial, commercial and public applications.

Designed and made in Germany from ultra-rugged, recyclable TPU (Thermoplastic Polyurethane) the Defender® range comprises various modular protection systems for cables and hoses with diameters up to 113 mm. Stringent raw material and production controls ensure that Defender® protectors meet exacting specifications and the highest quality standards. Defender® cable ramps are DEKRA certified in conformity with DIN 31000 and EN 61537, B2 fire rated according to DIN 4102 (B1 also available) and compliant with the Low Voltage Directive.

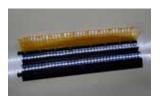

DEFENDER° LUX

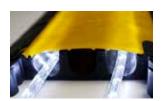

SEMI-TRANSPARENT LID SERIES

The ultimate in cable protection and trip hazard prevention, our innovative Defender LUX Series feature highly translucent yellow-tinted lids for running LED rope lights along your cables and cords. Developed in conjunction with major venues and event organizers Defender LUX Cable Protectors are the state-of-the-art indoor and outdoor solution to ensure maximum visibility and security in the dark. For use with standard LED rope lights.

DER CUSTOM SERVICE

DESIGN YOUR CABLE PROTECTION SYSTEM!

SPECIAL CONFIGURATIONS

ROBOTIC PLASTIC WELDING

For superior flexibility in designing your cable protection system and perfect integration into your environment Defender provides its own in-house robotic plastic welding service. Need an intersection or T-junction, a special angle or radius curve?

We produce one-offs and small quantities of Defender elements made to your requirements. What's more, at Defender engineering and tooling we develop and produce special purpose injection-molded protection solutions like those below. Talk to your Defender representative for more information and minimum orders.

LABEL YOUR CABLE PROTECTORS

Self branding of your cable protectors has 3 main advantages:

Advertisement for your brand / Corporate Identity conformity / Avoid mixing up your equipment with another company on large events. Self branding of the DEFENDER cable protectors with the Logo of your company can be purchased for orders ex 30 pieces. You will find the logo format requirements on our website. Feel free to contact our sales team for more information at sales@adamhall.com

CUSTOM SOLUTION DEVELOPMENT

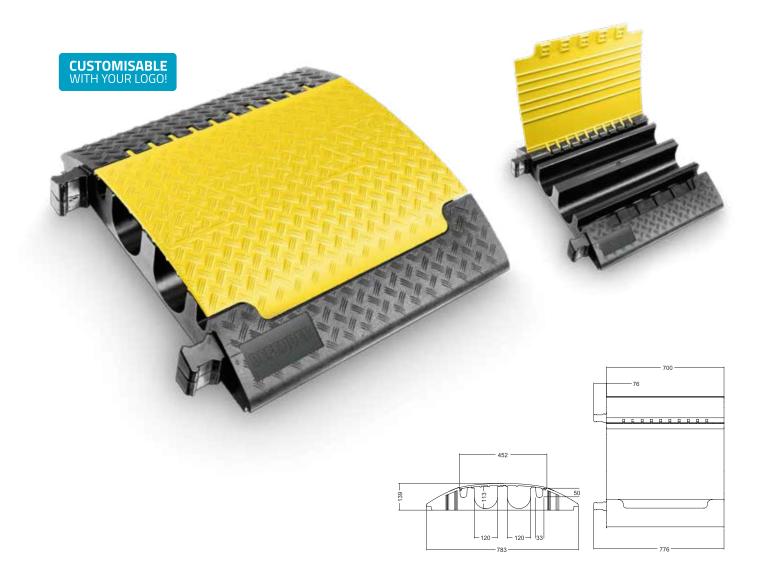

Developed with and produced for Halliburton Oilfield Services, the Subterra is a protection system for underground hydraulic lines. It combines thermoplastic polyurethane and reinforced polyamide materials to withstand earth pressure and truly demonstrates the scope of Defender's purpose design and custom production facilities.

DEFENDER RACE RESULT

DEFENDER SUBTERRA

Developed with leading race management and timing company race result, these injection molded thermoplastic polyurethane protectors are another Defender Custom product that has been purpose-designed for the company's sports event timing system antennas.

85600

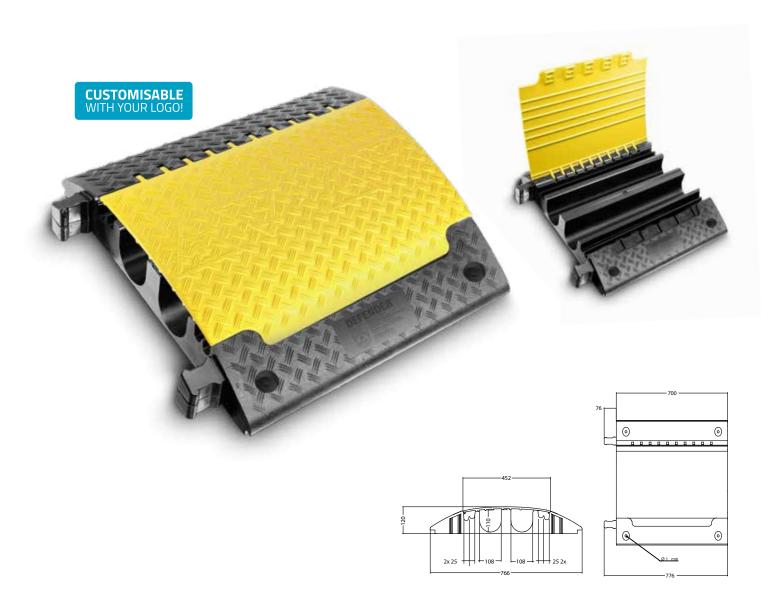

DEFENDER ULTRA L 2 ULTRA LARGE CHANNELS – THE HEAVY DUTY GIANT

The Ultra L cable protection system is designed for extra heavy duty environments and the largest cable and hose diameters. Featuring a pair of 120 x 113 mm channels flanked by two 33 x 50 mm ducts, integrated dog bone connectors for easy linking and a 5 t per 20 x 20 cm load capacity Defender® Ultra L protectors are eminently suitable for heavy wheeled traffic, construction sites, warehouses, carnivals, fairs, music events and other demanding applications.

APPLICATION RANGE

Trade fairs / walkways / marketplaces / Christmas markets / workshops / warehouses / shopping centres / department stores / construction sites, streets, etc. However, please ensure compliance with road traffic regulations (higher than 75 mm).

Product:	4-channel cable protector
Channel W x H:	33 x 50 mm (channels 1 and 4), 120 x 113 mm (channels 2 and 3)
Material:	TPU (Thermoplastic Polyurethane)
Shore A hardness:	88 ± 4
Load capacity:	approx. 5 t / 20 x 20 cm (typical tyre footprint area)
Fire rating:	B2 (B1 also available)
Resistant to:	most acids, oils, gasoline
Operating temperature:	-30° to +60° C
Length:	700 mm
Width:	783 mm
Height:	139 mm
Weight:	30.5 kg

85601

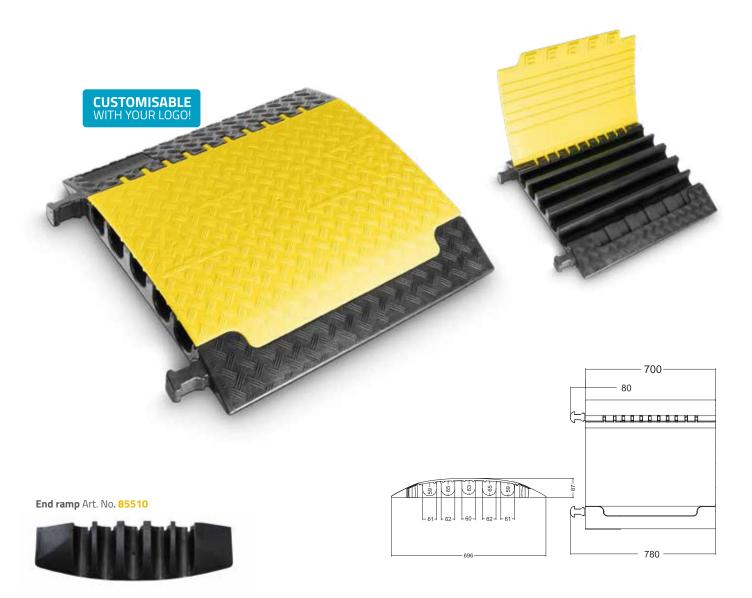

DEFENDER ULTRA L 2 2 ULTRA LARGE CHANNELS (2+4) – THE HEAVY DUTY GIANT

Ultra L 2 - heavy duty cable crossovers are designed for the most demanding applications and feature two extra large cable channels of 108 x 110 mm plus four channels with 25 mm diameter and integrated connector plugs for easy coupling of several elements. The load bearing capacity is approx. 5 tons on a 20 x 20 cm surface area. Therefore, Ultra L 2 cable crossovers are the ideal solution for heavy traffic, construction sites, warehouses, trade shows, carnivals and music events, and other applications involving particularly heavy use.. They are equipped with 4 fixation holes (ø 15 mm) for street installation.

APPLICATION RANGE

Trade fairs / walkways / marketplaces / Christmas markets / workshops / warehouses / shopping centres / department stores / construction sites, streets, etc. However, please ensure compliance with road traffic regulations (higher than 75 mm).

DEFENDER COMPACT 7 SMALL CHANNELS - THE DROP OVER SOLUTION

The Defender® COMPACT drop-over cable protector is a durable light-duty solution to guard cable lines and prevent tripping hazards. Featuring a ribbed surface for excellent traction and integrated dovetail connectors Defender® COMPACT drop-over cable ramps are suitable for pedestrian traffic in offices, shopping malls, conference facilities, trade shows and markets as well as stage and studio applications.

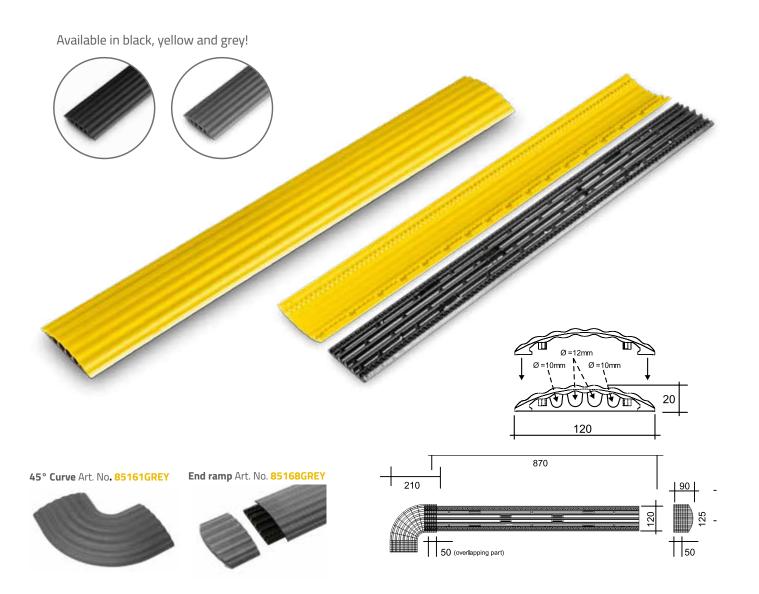

DEFENDER® COMPACT WITH BASE (85100 + 85103)

Attached to the optional 5-channel base the Defender® COMPACT dropover cable protector transforms into a heavy-duty guard with high load capacity to support trucks, forklifts and other vehicles. The ribbed surface provides excellent traction while integrated connectors on the base and drop-over facilitate lining up to form a rigid continuous protection system. The range of applications includes construction sites, carnivals, fairs, trade shows, exhibitions, warehouses, shopping malls and music events.

APPLICATION RANGE

Mainly in halls, at trade fairs, etc.

ADAM HALL STAGE FABRICS - PROTECTIVE AND DECORATIVE

Adam Hall provides a wide range of stage fabrics for protective and decorative purposes. These include lightweight stage mesh that is wind-permeable and tear-resistant, fence panel gauze or blackout cloth for backdrops and curtains. Our stage fabrics are availabe in bulk and convenient ready-made sizes.

GAUZE

GAUZE IS ESSENTIAL FOR STAGES, FOH AND DELAY TOWERS OR PLATFORMS

The lightweight but stable-and tear-resistant stage mesh is especially suited for outdoor events as covers, backdrops, curtains, and for privacy. The permeability of the material is an important property, as it prevents stress due to wind, gusts and storms, and ensures a stable structure.

The stage gauze by Adam Hall is available in four grades from close to loose-knit with different levels of opacity and a wind permeability of 16 to 50%. You will be able to find the appropriate material for almost all weather conditions. All versions are water-resistant, acid- and weatherproof, UV-resistant, color-fast and washable for up to 3 years, and suitable for temperatures from -30° to 70°.

It will save time in setting up, and can be easily attached to all truss systems using cable ties or Spannfix. In addition to providing protection for stage equipment and performers, it also creates a professional look. The gauze fabrics by Adam Hall can be individually printed upon request, and can therefore be turned into an eye-catching advertising space.

GAUZE FOR OUTDOOR EVENTS

The mesh, most likely named after the Palestinian city of Gaza, is also used for open-air events, where it is used in the panelling of stage structures, FOH and delay-towers, podiums and for setting up stages. Known in English as "stage mesh", the material also serves as backdrops, stage curtains and especially for privacy and as protection against dust and wind.

MAIN FEATURES OF GAUZE

The mesh fabric, made of polyethylene, has special characteristics and is suitable for a broad scope of applications: it is extremely tear-resistant, structurally stable, while being lightweight and classified as a B1 flame retardant according to the DIN 4102 standard. It is also water-resistant, weatherproof, UV resistant and last but not least, it is washable.

GAUZE IS A WIND-PERMEABLE!

The most important feature of the stage gauze is its wind permeability. It prevents the sail effect and ensures stability for mobile constructions, even at higher wind speeds. Adam Hall offers this material in four different grades ranging from fine to loose knit, with wind permeability factors of 16 to 50%. So, the stability of stage structures can be accurately calculated and the appropriate mesh selected according to the weather forecast and wind strength.

GAUZE AND TRANSPARENCY

The weave structure also determines the levels of blackout and sound permeability. Therefore, loose-knit mesh is suitable for covering speaker towers, while the particularly fine-mesh material is already opaque from a distance of five metres.

FURTHER USES FOR GAUZE

Thanks to its special properties, the polyethylene gauze is not only used in the event-technology – it is for example ideally suited as turf protection, because it is breathable, for the lining of trade fair stands, as paintball netting and for fence panel covering. With the B1 classification, it is also suitable as a cover for sprinkler systems on ceilings.

GAUZE FROM ADAM HALL

Gauze from Adam Hall is available in black and white, by the metre, and is ready-made with hem and eyelets. It can be easily attached with cable ties to all carrier systems and trusses, protects technology as well as performers whilst offering a professional stage appearance.

FENCE PANEL GAUZE

GAUZE TYPE 800 - 1.76 X 3.41 M, WITH EYELETS

Adam Hall fence panel covers are made of high density polyethylene which is perfect for vision and dust protection for open-air events and construction sites. The 1.76 x 3.41 m large tarpaulins are PVC reinforced at the hems, are fitted all the way around with eyelets at 50 cm intervals and are suitable for all standard mobile fences. The close-knit, 200 g heavy mesh fabric with high opacity is 20% wind permeable, waterproof, weather resistant and flame resistant according to DIN 4102-B1. Adam Hall fence panel covers are available in 9 colors (black RAL9005, grey RAL7040-7045, white, RAL9003 green RAL6028 dark blue RAL5003, light blue RAL5017, red RAL3020, orange RAL2009, yellow RAL1016-1018).

FEATURES

- PVC-reinforced hem and eyelets all the way around (50 cm intervals)
- Zinc plated eyelets
- Inner diameter of the eyelets: 0.9 cm, outer diameter 2 cm
- Waterproof, weather resistant
- Non-transparent from a distance of 5 m approx
- Temperature range from -30°C to +70°C
- Wind Permeability: approx. 20%
- B1 certified in accordance with DIN 4102
- Dimensional tolerances of +/- 5% are of a technical nature and depend on the temperature and humidity
- For use as screening at open-air events or as a construction fence panel to prevent dust

ADAM HALL PDUs AND POWER STRIPS - POWER WHERE YOU NEED IT

Available from heavy duty 19" rackmount to economy versions Adam Hall power distribution units and power strips come in a variety of configurations. Featuring front or rear facing outlets, flip lid covers, illuminating switches or daisy chaining capability they provide a choice of models for professional, office and home applications.

87480

19" / 2U POWER DISTRIBUTION UNIT 9 SOCKETS

Blue Amping Power. 19"/2 U mains distribution Unit, designed for stage use, fulfilling all relevant safety requirements at an affordable price.

- 3 x indicator lights to control Phase L1, L2, L3
- Power inlet via 32A CEE 5 pole panel plug red color
- Parallel 32 A panel socket outlet red color, outlet front panel
- 3 x safety plug socket with flip cover, grey color fused 3 x C16A automatic circuit breaker
- Outlet rear 6 x safety plug socket with flip cover
- Dimensions: 483 x 88 x 70 mm
- Sheet steel powder coated housing
- Made in Germany, compliant to CE/VDE/DIN
- Weight: 3.06 kg

87472 19" / 2U POWER DISTRIBUTION UNIT 9 SOCKETS

16 A / 250 V AC

On the front, 3 practical outlets with hinged lids. On the rear, 6 diagonally arranged sockets for easy insertion of power supplies, angle plugs, etc. With independent twin-pole power switches for separate switching of the front and rear. Robust powder coated steel housing.

- Includes a 3m x 1.5 mm² mains cord with safety plug (CEE 7/7).
- Dimensions (WxDxH): 483 x 88 x 90 mm
- Installation depth: 75 mm
- Weight: 1.95 kg

87473 19" POWER DISTRIBUTION UNIT 6 SOCKETS, 3 CIRCUITS

Mains distribution unit with three separate circuits 19"/1 U. 3 x 2 safety plugs outlets (red/white/black) with 16A/250 V AC each.

- Black aluminum housing
- 2 m cable with 16A 400V per phase CEE plug
- Weight 1.12 kg

874716 POWER STRIP 1 U 19 SOCKETS

The 874716 provides 16 type F grounded outlets in a 19" aluminum enclosure with permanently attached 2 m cord and angled CEE 7/7 power plug. The 1 U rackmount power strip features individual illuminating on/off switches for the 8 front and rear outlets each plus overload protection with individual circuit breakers and reset buttons.

87476 POWER STRIP 6-WAY

The 87476 offers a total of 6 earthed power sockets in a 19" 1U aluminum housing with a 2 m power cable and angled CEE 7/7 plugs. Each power socket is fitted with an illuminated rocker switch on the front that is individually switchable.

AHPROPORT4 4-OUTLET POWER STRIP

Designed for easy daisy chaining, the PROPORT 4 power strip provides 4 type F grounded outlets with individual flip lid covers plus blue and white power I/O connectors. Featuring a rugged all-metal enclosure and two female thread M10 suspension points it is ideal for neat, custom power distribution on stages, trusses and in gear rigs.

- Rated @ 250 V, 16 A.
- 4 IP54 outlets with flip lid covers
- Blue and white power I/O connectors
- All-metal enclosure
- 2 M10 inserts
- GS and CE marks

AHPROPORT4T 4-OUTLET POWER STRIP

The PROPORT 4T is the ideal power strip for tidy and specific power distribution on stage, on trusses and in equipment rigs. Its robust metal housing features 4 protective contact socket outlets with hinged lids, a black/yellow power I/O for power supply and transmission, and two M10 threaded inserts for mounting and fixed installation.

- Rated @ 250 V, 16 A.
- 4 IP54 outlets with flip lid covers
- Black and yellow power I/O connectors
- All-metal enclosure
- 2 M10 inserts
- GS and CE marks

AHPROPORT6T 6-OUTLET POWER STRIP

The PROPORT 6T is the ideal power strip for tidy and specific power distribution on stage, on trusses and in equipment rigs. Its robust metal housing features 6 protective contact socket outlets with hinged lids, a black/yellow power I/O for power supply and transmission, and two M10 threaded inserts for mounting and fixed installation.

- Rated @ 250 V, 16 A.
- 6 IP54 outlets with flip lid covers
- Black and yellow power I/O connectors
- All-metal enclosure
- 2 M10 inserts
- GS and CE marks

AHPROPORT4TT 5-OUTLET POWER STRIP

The PROPORT 4TT is ideal for tidy and specific power distribution on stage, on trusses and in equipment rigs. The robust metal housing features a black/yellow power input socket for power supply and 5 black/yellow power outs for power transmission (4 on top of the distributor). 2 x M10 threaded inserts for mounting and fixed installation

- Rated @ 250 V, 16 A.
- 4 IP54 outlets with flip lid covers
- Black and yellow power I/O connectors
- All-metal enclosure
- 2 M10 inserts
- GS and CE marks

AHPROPORT4CEE 4-OUTLET POWER STRIP

Designed for easy daisy chaining, the PROPORT 4 power strip provides 4 type F grounded outlets with individual flip lid covers plus blue and white power I/O connectors. Featuring a rugged all-metal enclosure and two female thread M10 suspension points it is ideal for neat, custom power distribution on stages, trusses and in gear rigs.

- Rated @ 250 V, 16 A.
- 4 IP54 outlets with flip lid covers
- Black and yellow power I/O connectors
- All-metal enclosure
- 2 M10 inserts
- 40 cm power cable with 16 A CEE plug

87471 19" POWER DISTRIBUTION UNIT 8 SOCKETS

1 U, with illuminated 2-pole switch on the front panel and 8 safety plug mains outlets on the rear panel. 16A/250 V AC.

- Black aluminum housing
- 54 mm deep with 2 m cable
- Weight: 0.85 kg
- Mains Distribution Unit 19"/1 U
- 19" ears can be turned around

Also available with "french standard" connectors 87478

87471T 19" RACKMOUNT 8 OUTLET POWER STRIP

The 87471T provides 8 type F grounded outlets on the rear of a 19" aluminum enclosure. The front panel features a black and yellow power twist power inlet and illuminated on/ off switch.

- Rated @ 250 V, 16 A
- 8 x 45° angle rear outlets
- Illuminated on/off switch
- Removable power supply with
- black-yellow power twist connector

87471IEC 19" POWER STRIP 1 U WITH 10 IEC CONNECTORS

This 1U rackmount power strip provides ten IEC C13 grounded outlets on the rear of a 19" aluminum enclosure. The front panel features a C14 male inlet, an illuminated master on/off switch and a resettable circuit breaker for overload protection.

- Rated @ 250 V, 16 A
- 10 x IEC C13 grounded rear outlets
- Illuminated on/off switch
- Push-to-reset circuit breaker
- 10 x 1.5 m IEC cables included

87471USB 8-OUTLET 19" RACKMOUNT POW-ER STRIP WITH DUAL USB CHAR-GING PORTS AND ON/OFF SWITCH

The 87471USB features eight type F grounded safety outlets plus two type A USB ports to charge most USB devices. This professional 19" power strip comes in a rugged aluminum housing with permanently attached 2 m power cord, illuminated on/off rocker switch and reversible rackmount angle brackets.

- Number of outlets(earthing contact/ IEC 7/4):45° angled, 8
- USB connector: Typ A
- Max. charge current: 1A
- Cable connector: Earthing contact (CEE 7/7), angled
- Conductor cross-section: 3X1.5 mm²
- 16A/250V AC
- Housing material: aluminum

87478 19" MAINS POWER STRIP 8 SOCKETS, FRENCH CONNECTORS

- Mains Distribution Unit 19"/1 U
- Illuminated 2-pole switch on the front panel
- 8 french mains outlets on the rear panel
- 16A/250 V AC
- Black aluminum housing
- 54 mm deep
- 2 mtr. cable
- 19" ears can be turned around

87470 POWER DISTRIBUTION UNIT 4 SOCKETS

tion unit with four safety plug mains.
Built in a stable aluminum housing
30 cm length (not 19").
Ideal for power adaptors due to the
larger spacing between the outlets.
Four mounting positions are possible
thanks to the variable mounting clips.
Predestinated to be screwed to the
inside of racks or similar surfaces

Professional compact mains distribu-

- (screws not included).

 Length of cable: 2 m
- Weight: 0.6 kg
- Cross section of the inner conducters: 3 x 1.5mm²
- 16 A / 250V AC

Also available with USB power outlets: **87470USB**

87470USB 4-OUTLET POWER STRIP WITH DUAL USB CHARGING PORTS

The 87470USB features four type F grounded safety outlets plus two type A USB ports to charge most USB devices. This professional power strip comes in a rugged aluminum housing with permanently attached 2 m power cord and mounting angles that provide four mounting positions. The wide spacing of the 45° angled outlets easily accomodates multiple AC adapters side by side.

■ Weight 0.56 kg

874714 POWER STRIP 1 U 14 SOCKETS

- Power distributor with long (3m) cord for up to 14 devices.
- 12 Safety sockets and 2 IEC sockets (not 19")
- Type: 96cm/ 44.5 mm
- Number of outlets (earting contact / IEC 7/4): 45° angle, 12
- Number of outlets (IEC C14): 2
- Cable Length: 3 m
- Cable connector: Earthing contact (CEE 7/7), angled
- Conductor cross-section: 2.5 mm²
- Operating Voltage: 250 V
- Max. current: 16 A
- Housing material: aluminum
- W/H/D: 960 x 44 x 44 mm
- Other Features: Illuminated on / off switch, mounting bracket

8747IP3 3-OUTLET POWER STRIP WITH IP 44 RATING

The IP44 rated 8747 IP 3 features three type F grounded outlets and 1.4 m power cord with standard earthing contact CEE 7/7 power plug for additional reach and flexibility. It is suitable for general outdoor use.

- IP44 power strip
- Rated @ 250 V, 16 A
- 45° angled outlets

8747IP5 5-OUTLET POWER STRIP WITH IP44 RATING

I The IP44 rated 8747 IP 5 features five type F grounded outlets and 1.4 m power cord with standard earthing contact CEE 7/7 power plug for additional reach and flexibility. It is suitable for general outdoor use.

- IP44 power strip
- Rated @ 250 V, 16 A
- 45° angled outlets

8747S3 3-OUTLET POWER STRIP WITH ON/OFF SWITCH

The 8747S3 features three type F grounded outlets, an illuminated on/off switch and 1.4 m power cord for additional reach and flexibility.

8747S6 6-OUTLET POWER STRIP WITH ON/OFF SWITCH

The 8747S6 features six type F grounded outlets, an illuminated on/off switch and 1.4 m power cord for additional reach and flexibility.

8747S3USB 3-OUTLET POWER STRIP WITH DUAL USB CHARGING PORTS AND ON/OFF SWITCH

The 874753USB features three type F grounded outlets, two USB ports to charge most USB devices, an illuminated on/off switch and 1.4 m power cord for additional reach and flexibility.

8747X3 3-OUTLET POWER STRIP

The 8747X3 features three type F grounded outlets.

- Rated 250 V, 16 A
- Cable connector: Earthing contact (CEE 7/7), angled
- Conductor cross-section: 3 x 1.5 mm²
- Operating Voltage: 250 V
- Max. current: 16 A
- Other Features: child protection

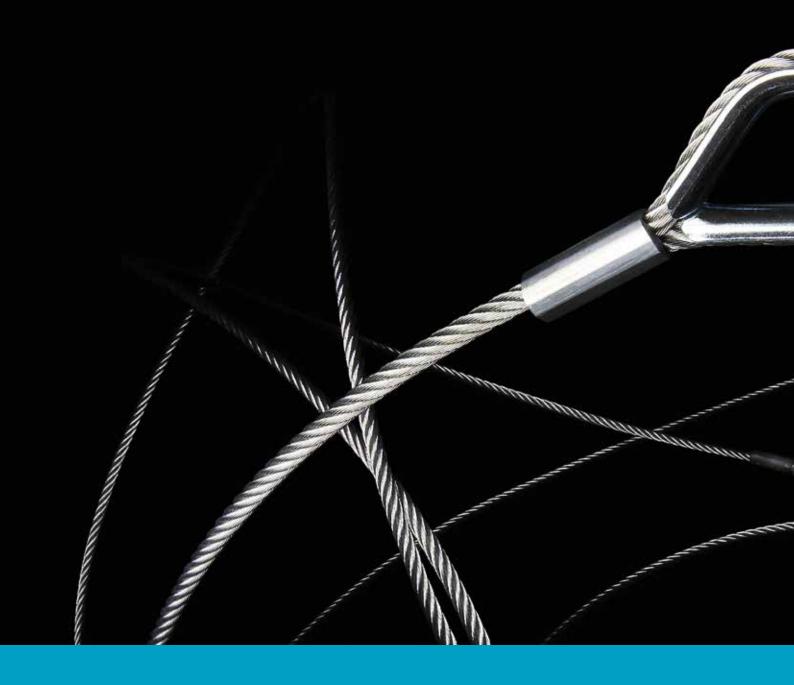

Art. No.	Cable length
8747X3	1.4 m
8747X3M3	3.0 m
8747X3M5	5.0 m

8747X6 6-OUTLET POWER STRIP

The 8747X6 features three type F grounded outlets.

- Rated 250 V, 16 A
- Conductor cross-section:
 3 x 1.5 mm²
- Operating Voltage: 250 V
- Max. current: 16 A
- Other Features: child protection

Art. No.	Cable length
8747X6	1.4 m
8747X6M3	3.0 m
8747X6M5	5.0 m

ADAM HALL SAFETY CABLES - SECURE AND PROTECT

Adam Hall safety cables and wire ropes guard lighting fixtures and sound equipment against falling should the main attachment method fail. They are essential in stage rigging and fixed installations to meet legal safety requirements and available with heavy duty thimbles, screw links and carabiners.

RIGGATEC - RIGGING ACCESSORIES

RIG400200685

HANGING POINTS FOR 220 MM TRUSSES UP TO 75 KG

- For safe and compliant suspension of trusses
- For traverses with a diameter of about 32-35 mm
- Suitable for use on people
- Loadable up to 75 kg
- Statically checked
- For use in exhibition stand construction, retail, event technology
- Weight: 0.54 kg

RIG400201101

HANGING POINT FOR 290 MM TRUSSES UP TO 170 KG BLACK

- For safe and compliant suspension of trusses
- For traverses with a pipe diameter of ca. 48 51 mm
- Suitable for operation over people
- Loadable up to 170 kg
- Statically tested
- For applications in the field of exhibition stand construction, shopfitting, event technology
- Weight: 1.4 kg

RIG400201100

HANGING POINT FOR 290 MM TRUSSES UP TO 170 KG

- For safe and compliant suspension of trusses
- For traverses with a pipe diameter of ca. 48 51 mm
- Suitable for operation over people
- Loadable up to 170 kg
- Statically tested
- For applications in the field of exhibition stand construction, shopfitting, event technology
- Weight: 1.4 kg

RIG400201105

HEAVY DUTY HANGING POINT FOR 290 MM TRUSSES UP TO 750KG

- For safe and compliant suspension of trusses
- for traverses with a pipe diameter of approx.48 51 mm
- Suitable for operation over persons
- Loadable up to 750 kg
- Statically tested
- For applications in the field of exhibition stand construction, shopfitting, event technology
- Weight: 2.49 kg

RIGGATEC - RIGGING ACCESSORIES

RIG400201110

HEAVY DUTY HANGING POINT FOR 400 MM TRUSS TO 750 KG

- For safe and correct suspension of trusses
- For traverses with a pipe diameter of approx. 48 - 51 mm
- Suitable for operation over persons
- Loadable up to 750 kg
- Statically tested
- For applications in the field of exhibition stand construction, shopfitting, event technology
- Weight: 2.9 kg

RIG608153380

UNIVERSAL PROJECTOR MOUNT FOR MOUNTING ON A TRUSS

- Compatible with all standard projectors manufacturers
- Wide range of accessories including Riggatec Halfcoupler,small silver(diameter 48-51mm)
- Easy installation
- Rotates 360° + tilt adjustment
- Also suitable for sloping surfaces
- Max. loading capacity 13,50kg
- The illustrated Beamer is not included
- Weight: 1.2 kg

RIG608154490

LCD / PLASMA TRUSS MOUNT 37-65 ", MAX 45 KG FOR FD 21 - FD 24

- Capacity 45 kg
- Compatible with all 37 "- 65" devices
- Supports all VESA standards up to 800 x 400 mm
- Incl. 4 x Riggatec half clamp halfcouplers small silver up to 75 kg (32 - 35 mm)

RIG608154495

LCD / PLASMA TRUSS MOUNT 37-65 ", MAX 45 KG FOR FD 31 - HD 44

- Capacity 45 kg
- Compatible with all 37 "- 65" devices
- Supports all VESA standards up to 800 x 400 mm
- Riggatec half clamp halfcouplers small silver up to 100 kg (48 - 51 mm)

SAFETIES

S37062B

SAFETY ROPE 3 MM WITH SCREW LINK LENGTH 0.6 M BLACK

- 3 mm safety cable black
- Lenght: 0.6 m
- Galvanised
- 6 x 19 + fibre core
- Eyelet at both ends
- One end with non detachable chain link (galvanised, 5 mm thick)
- Stamped according to DIN 56926 (code number: 140)
- Up to 10 kg device weight
- Weight: 0.07 kg

S45062B

SAFETY ROPE 4 MM WITH SCREW LINK LENGTH 1 M BLACK

- 4 mm safety cable
- Length: 0.6 m
- Black galvanised
- 6 x 19 + fibre core
- Eyelet at both ends
- One end with unlosable chain link (black galvanised, 6 mm thick) 0.60 m
- Stamped according to DIN 56926 (code number: 200)
- Up to 20 kg device weight when using two safety cables
- Weight: 0.11 kg

S37060

SAFETY ROPE 3 MM WITH SCREW LINK LENGTH 0.6 M

- 3 mm safety cable
- Length: 0.6 m
- Galvanised
- 6 x 19+ fibre core
- Eyelet at both ends
- One end with non detachable chain link (galvanised, 5mm thick)
- Stamped according to DIN56926 (code number: 140)
- Up to 10 kg device weight
- Weight: 0.05 kg

S45100

SAFETY ROPE 4 MM WITH SCREW LINK LENGTH 1 M

- 4 mm safety cable
- Length: 1.0 m
- Galvanised
- 6 x 19 + fibre core
- Eyelet at both ends
- One end with unlosable quick screw link (90 x 9, with screw lock)
- Stamped: WLL 250 kg W/K
- Up to 20 kg device weight when using two safety cables
- Weight: 0.13 kg

SAVEKING SHOCK ABSORBING SAFETY ROPE

Safety rope with an integral brake for controlled dissipation of fall energy, approved as a safety rope for use in the entertainment industry (BGV C1). When conventional wire ropes are used, high levels of linear momentum can result if secured equipment falls. SAVEKINGS wire ropes incorporate a loop with a brake clamp. In the event of a fall, the loop constricts, thus absorbing the high shock forces. A color marking on the brake clamp serves as an indicator that the rope is in good condition.

Art. No.	Up to	Thick.	Length	Weight
S33060SK	20 kg	3.0 mm	0.6 m	0.07 kg
S43060SK	40 kg	4.0 mm	0.6 m	0.13 kg
S43100SK	40 kg	4.0 mm	1.0 m	0.15 kg
S55100SK	60 kg	5.0 mm	1.0 m	0.26 kg

S82100

SAFETY ROPE 8 MM LENGTH 1 M

- 8 mm safety cable
- Length: 1.0 m
- Galvanised
- 6 x 19 + fibre core
- Eyelet at both ends
- Stamped: BGV C1 I.W 8 mm 295 kg
- Up to 100 kg device weight when using two safety cables
- Weight: 0.38 kg

ATTENTION: Chain link S93100 has to be ordered separately!

SAFETIES

S53102B

SAFETY ROPE 5 MM WITH SCREW GATE CARABINER LENGTH 1 M BLACK

- 5 mm safety cable
- Lenth: 1.0 m
- Black galvanised
- 6 x 19 + fibre core
- Eyelet at both ends
- One end with unlosable Kettbiner (black galvanised, 90 x 8 mm)
- Stamped according to DIN 56926 (code number: BGV C1)
- Up to 45 kg device weight when using two safety cables
- Weight: 0.26 kg

S42100

SAFETY ROPE 4 MM LENGTH 1 M

- 4 mm safety cable
- Length: 1.0 m
- Galvanised
- 6 x 19 + fibre core
- Eyelet at both ends
- Up to 30 kg device weight when using two safety cables
- Weight: 0.08 kg

ATTENTION: Chain link S93061 has to be ordered separately

S53100

SAFETY ROPE 5 MM WITH SCREW GATE CARABINER LENGTH 1 M

- 5 mm safety cable
- Length: 1.0 m
- Galvanised
- 6 x 19 + fibre core
- Eyelet at both ends
- One end with unlosable Kettbiner (90 x 8, with screw connection)
- Stamped: BGV C1 200 kg IW
- Up to 45 kg device weight when using two safety cables
- Weight: 0.22 kg

S63100

SAFETY ROPE 6 MM WITH SCREW GATE CARABINER LENGTH 1 M

- 6 mm safety cable
- Length: 1.0 m
- Galvanised
- 6 x 19 + fibre core
- Eyelet at both ends
- One end with unlosable Kettbiner (90 x 8, with screw connection)
- Stamped: BGV C1 200 kg IW
- Up to 60 kg device weight when using two safety cables
- Weight: 0.29 kg

S50500

SAFETY ROPE 5 MM LENGTH 5 M FOR S50S WIRE CLIP FOR ROPES 4 - 5 MM

- 5 mm Safety Cable
- Length: 5.0 m
- Galvanised
- 6 x 19 + fibre core
- Tin-plated at one end with Eyelet at the other end
- Weight: 0.50 kg

S80500

SAFETY ROPE 8 MM LENGTH 5 M FOR S80VS WIRE CLIP FOR ROPES 6 - 8 MM

- 8 mm Safety Cable
- Length: 5.0 m
- Galvanised
- 6 x 19 + fibre core
- Tin-plated at one end with Eyelet at the other end
- Weight: 1.20 kg

FLYWARE

572#

CARGO RESTRAINT TRACK BLACK

Cargo restraint track for directional adjustment of flying P.A. systems.

- Fixing M6 x 40 countersunk
- Finish: Black anodised aluminum
- Loading: 1000 kg horizontally, 1700 kg vertically

Art. No.	Length	Weight
5720	15.0 cm	0.09 kg
5721	22.5 cm	0.14 kg

5740ADOUBLE STUD RING

Cargo restraint Twin stud & ring to suit 5720 and 5721 tracking

- Forged steel
- Finish: Zinc plated
- Breaking Strain: 2400 daN
- Weight: 0.17 kg

5725B

FLYING PLATE, ALUMINUM LASHING POINT

- Direct tensile load-bearing capacity of up to 500 daN
- Maximum breaking strength of 1,000 daN
- For use in combination with our mounting lugs 5745
- Weight: 0.02 kg

S93061

SCREW LINK LONG

Chain Link for S42100.

- Galvanised
- 6 mm thick
- Stamped according to DIN 56926 (code number: 200)
- WLL: 350 kg
- Weight: 0.06 kg

5745 SINGLE STUD RING

Roping eye.

- Single cargo spring stud
- To clip into 5725, 5720, 5721
- Ring inside diameter: 29,5 mm
- Max Load Bearing: 300 daN
- Weight: 0.05 kg

S93101

SCREW LINK LONG

Chain Link for S82100.

- Galvanised
- 10 mm thick
- Stamped according to DIN 56926 (code number: 200)
- WLL: 1000 kg
- Weight: 0.17 kg

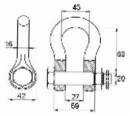

S50SV2

WIRE CABLE GLIDER FOR 4 - 5 MM CABLES WITH COUPLING RING

- Diameter: 25mm
- Total length: 87mm
- For wire cables with a diameter of:4.0 and 5.0 mm
- Outside diameter of ring: 54mm
- Inside diameter of ring: 30mm
- Workload: 80 kg
- (cable diameter 4.0. mm) and 130 kg (cable diameter 5.0 mm)
- Other features: BG- and TÜV-certified
- Weight: 0.28 kg

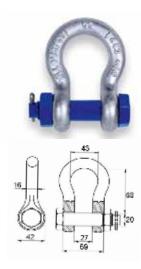

FLYWARE

SH2B0325 SCHACKLE WITH BOLT, NUT AND SPLIT PIN

- Max. load: 3250 kg
- Nominal value: 5/8 "
- Material thickness: 16 mm
- Inner diameter: 51 mm
- Exterior diameter: 83 mm
- Weight: 0.70 kg

SH20325 SCHACKLE WITH BOLT, NUT AND SPLIT PIN

High-strength tempered shackle, hotdip galvanised, curved, with bolt, nut, and split pin.

- Max. load: 3250 kg
- Nominal value: 5/8 "

Weight: 0.66 kg

SX01205

ROUND SLING WITH FABRIC INSERT 1.2 - 0.5 M

Black roundsling with fiber or wire rope inlay and lashings - Made in Germany. Our roundslings with fiber inlay are featuring a tubular coating made from extra dense polyester webbing with Pu-impregnation. The core consists of endlessly laid polyester yarn. In addition to the marking on the label, the working load can be learned from a colored seam. All roundslings are furnished with user's manual excerpts on an identification label, marked with utilization length and working load limit (WLL).

- Workload: 1.2 t
- Weight: 0.16 kg

TRUSS STACKER

3810##

EUROTRUSS ROLL BOARDS

The Truss Stacker roller board system combined with the 382100 stacker interface facilitates easy, effortless traverse stacking for safer transport. The birch ply roller boards are available in versions with 2 x 2, 3 and 4 rollers and are suitable for 3 and 4 point traverses.

- Universally suitable for use with 2 x 2, 3 and 4 point traverses
- Material: birch multiplex
- Material thickness: 18 mm
- Surface: honed

- Wheel diameter: 100 mm
- Manufacturer of castors: Adam Hall
- Length: 600 mm
- Suitable for: Eurotruss
- For truss with outer tube dimension: 288 291 mm

381022

EUROTRUSS ROLL BOARD WITH 2 X 100 MM ROLLS

- Number of casters: 2
- thereof Braked: 1
- Weight: 4,7 kg

381033

EUROTRUSS ROLLER BOARD WITH 3 X 100 MM ROLLS

- Number of casters: 3
- thereof Braked: 2
- Weight: 6 kg

381044

EUROTRUSS ROLLER BOARD WITH 4 X 100 MM ROLLS

- Number of casters: 4
- thereof Braked: 2
- Weight: 7,4 kg

382100

STACKER INTERFACE FOR EUROTRUSS ROLL BOARD

The Truss Stacker System enables easy and trouble-free stacking of trusses directly onto specially designed roller boards for safe transport with these 'Interface Stackers'. The corresponding roller boards are available in 2-roller, 3-roller and 4-roller versions and are universally usable for 2 x 2, 3 and 4 point trusses with an outer pipe dimension of 288 - 291 mm.

- Material: birch multiplex
- Material thickness: 30 mm
- Surface: honed
- Length: 600 mm
- Suitable for: Eurotruss
- For truss with outer tube dimension: 288 291 mm
- Weight: 0,46 kg

MAUI® P900

A GROUNDBREAKING VISION IN PRO AUDIO

Creating the MAUI P900, we set out to combine state-of-the-art audio technology and sleek elegance into a loudspeaker system that breaks new ground. Merging inspired aesthetics with technical excellence, the MAUI P900 is a vision come true.

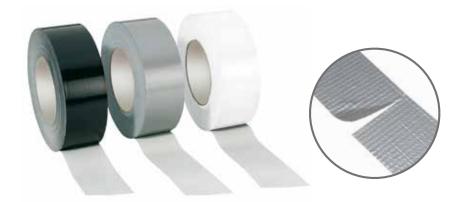

ADAM HALL STAGE TAPES - THE QUICK FIX

Simply indispensable for stage techs and musicians, adhesive tapes provide quick and effective solutions when it comes to bundling and securing cables or marking equipment. Covering all needs the Adam Hall range of tapes includes the classic gaffer tape, waterproof duct tape, anti-slip and safety tapes, flame-retardant insulating tapes and many more in various widths.

01360SPRAY ADHESIVE 500 ML CAN

The simple and fast adhesive from a spraycan for large-scale surfaces. It bonds many types of materials. Specially designed forlong-lasting, extra strong bonding of rough and uneven surfaces such as paper, cardboard, felt, fabric, plasticizer-free plasticfoils, foams, padding, rigid foams with each other and itself; as well as onto wood, glass, metal, ceramics (ideal for making cases and boxes).

The amount of adhesive can be adjusted (high/medium/low) by a special valve. Depending on the material, anarea of up to 4 m² can be bonded together.

- Temperature resistant from -20°C to +60°C
- Weight: 0.50 kg

GLUE & PAINT

01362

SPRAY ADHESIVE 4 KG CONTAINER

The Spray adhesive is a universal contact adhesive for bonding upho-Istery foam on itself, on upholstery fabrics, leather, wood, hard fibre, paperboard, rubberized hair, fleece, polystyrene foam and other plasticizer free upholstery material. This contact adhesive applicable by spray characterised by a long contact life and good heat resistance. The adhesive produces an elastic and durable joint. Fits perfectly together with the Spray Air Gun. (Article No. 01362AG).

■ Weight: 4.40 kg

HUMFREES UNIVERSAL SYSTEM

HUM & NOISE IN RACK SYSTEMS ...

Usual mounting of 19" equipment in a rack system results in contact between the devices through the rack rails. This creates ground loops – the most common cause of hum and noise.

The unique Humfrees mounting system interrupts these groundloops by isolating the 19" units from the rails and from each other. Scarring and scratching of the front panel by the mounting screws is also eliminated. Set for one unit.

87463ULTRA

GOOSENECK COLD WHITE COB LED RACK LIGHT

The 87463 Ultra is a single space dimmable rack light with level memory. The dual gooseneck lamps are equipped with cold white COB LEDs providing 3 levels of illumination and flexible positioning. The 87463 Ultra is designed for both front or rear mounting and comes with a 12 volt DC power adapter.

■ Weight: 0.41 kg

87463

LED GOOSENECK RACKLIGHT - 2 GOOSENECKS

- 9" 1 U Dual Gooseneck LED Rack Light
- Dimmer control
- Blue / white switchable
- 4 white and 2 blue LEDs
- Miniature external power supply (12 V)
- Weight: 0.89 kg

87451PRO

LED ARRAY RACK LIGHT WHITE 1 U

This rack light meets the highest professional standards! Equipped with 18 ultra bright LEDs, arranged in an array, this rack light ensures a uniform light distribution over the entire width of the rack. Switching on and off is done via "push-and-hold" on a button. Also, 3 brightness levels can be adjusted with the same button.

■ Weight: 0.98 kg

87451PROC

LED ARRAY RACK LIGHT MULTI-COLOR 1 U

This rack light meets the highest professional standards! Equipped with 18 ultra bright LEDs, arranged in an array, this rack light ensures a uniform light distribution over the entire width of the rack. Switching on and off is done via "push-and-hold" on a button. Also, 3 brightness levels can be adjusted with the same button.

■ Weight: 0.98 kg

87451SMART

19" LED SENSOR RACK LIGHT 1 U WHITE

This rack light with patented Smart Motion Sensor Technology features a strip of 18 ultra-bright white LEDs to deliver consistent illumination across the entire rack width. It is switched on by pressing and holding the power button; a motion sensor activates the LEDs.

Weight: 0.98 kg

87451SMARTC

19" LED SENSOR RACK LIGHT 1 U MULTICOLOR

This rack light with patented Smart Motion Sensor Technology features a strip of 18 ultra-bright LEDs to deliver consistent illumination across the entire rack width. It is switched on by pressing and holding the power button; a motion sensor activates the LEDs.

■ Weight: 0.98 kg

SLED1ULTRA###

GOOSENECK LIGHT

The SLED 1 ULTRA is a matt black gooseneck light with 4 extra bright white COB LEDs and 3-pin male XLR plug that works on dedicated 12 volt to 48 volt DC. The 300 mm gooseneck is easily flexible yet stays put where you bend it, the power switch is conveniently located on top of the lamp.
