

HDMI to HDBT Transmitter - True1

xVision Converter Series

#XVVHDMI2HDBTT1

Professional equipment in mission-critical applications is all about reliability and confidence. So we started with a clean sheet, and built what might soon become your most trustworthy piece of equipment. Introducing the world's first video converters truly designed for the road. Video converters nowadays are used everywhere on professional A/V events, presentations, live shows and tours and often have a critical role. Yet, they are often the weakest link in the signal chain. Low quality connectors, weak enclosure, external consumer-grade power supply, and overall barebones design that all contribute to a generally unreliable piece of equipment. We wanted to change that, so we designed the xVision Video Converters.

Connections

Video Input

HDMI 1.4 with lock system

Ethernet

Locking RJ45 EtherCON connector

Video Output

HDBaseT 1.0 on shielded EtherCON connector

Recommended cable

UTP CAT6a with EtherCON connectors
Contact Theatrixx Technologies for more information

Supported Signals

Video Format Support

HDMI 1.4

HDCP Support

HDCP 1.4

Ethernet Support

100 Mbps

Certifications

DESIGNED & MANUFACTURED
IN CANADA
