

***SMOKING HOT
SMOKE MACHINES***

The **QubiQ** series of smoke machines offers a highly reliable and safe line of equipment for generating fog. With dual temperature protection and a fluid level detector they are regarded as one of the safest on the market. They are an excellent partner for stages and parties.

In addition to their unique design, they offer real-time temperature monitoring of their heating element (shown on the display in % of the normal operating temperature). This allows you to adjust the output to a level where the flow doesn't shut off to allow the element to heat up again. This way, the machines are able to produce a continuous output.

Every **QubiQ** smoke machine can be controlled manually, over DMX, or via the included remote control with timer options.

Although it has the least amount of power, the 1000-W **QubiQ** S1000 fogger is anything but entry level!

The **QubiQ** S1500 is a fogger with a little bit more power: 1500 W – for that extra oomph!

The top-of-the-line **QubiQ** S2500 fogger has 2500 W of heating power available – heaps of output at the touch of a button!

The **QubiQ** F1500 is a powerful 1500-W fazer – for a finer mist than the foggers.

QubiQ S1000 Smoke Machine

61060 High performance 1000 W smoke machine

The Showtec **QubiQ** S1000 is a professional 1000 W Smoke Machine. This fogger is reliable, safe and feature-rich. In addition, it has a practical and nice looking design. It will be your best smoking friend at small to large venues.

The smoke intensity is seamlessly adjustable from 0–100 %. Not only can you control the fogger manually, but also via DMX or included timer remote control.

The **QubiQ** S1000 is reliable since it can provide a continuous output and it has a comprehensive security. It has an accurate and reliable temperature control (double over temperature protection), as well as a sensor to know when the liquid is almost empty.

Special features:

- Reliable and safe due to temperature protection and liquid sensor
- Continuous and steady output till tank runs out of liquid
- Adjustable output level (0–100 %)
- Manual, (timer) remote and DMX control
- 1 L tank capacity
- 3 min warm-up time
- Including remote control with timer function

Technical Information:

Power Supply:	220V-240 VAC 50 Hz
Power Consumption:	1.000 W
Power Connector in:	Power Pro Blue
DMX Connector:	XLR 3P In/Out
Output Direction:	Forward
Housing:	Aluminum / Metal
Colour:	Black
Length (mm):	426 mm
Height (mm):	280 mm
Width (mm):	305 mm
Weight:	9,2 kg
Control Mode:	DMX / Manual / Remote / Timer
Display:	OLED
DMX Channels:	1
Included Cables:	Power Pro Cable
Included Remotes:	Timer / Wired

+ Remote for QubiQ Series

61065 Manual and timer control

QubiQ S1500 Smoke Machine

61061 High performance 1500 W smoke machine

The Showtec **QubiQ** S1500 is a professional 1500 W Smoke Machine. This fogger is reliable, safe and feature-rich. In addition, it has a practical and nice looking design. It will be your best smoking friend at small to large venues.

The smoke intensity is seamlessly adjustable from 0–100 %. Not only can you control the fogger manually, but also via DMX or included timer remote control.

The **QubiQ** S1500 is reliable since it can provide a continuous output and it has a comprehensive security. It has an accurate and reliable temperature control (double over temperature protection), as well as a sensor to know when the liquid is almost empty.

Special features:

- Reliable and safe due to temperature protection and liquid sensor
- Continuous and steady output till tank runs out of liquid
- Adjustable output level (0–100 %)
- Manual, (timer) remote and DMX control
- 1.5 L tank capacity
- 4.5 min warm-up time
- Including remote control with timer function

Technical Information:

Power Supply:	220V-240 VAC 50 Hz
Power Consumption:	1.500 W
Power Connector in:	Power Pro Blue
DMX Connector:	XLR 3P In/Out
Output Direction:	Forward
Housing:	Aluminum / Metal
Colour:	Black
Length (mm):	450 mm
Height (mm):	280 mm
Width (mm):	305 mm
Weight:	10,8 kg
Control Mode:	DMX / Manual / Remote / Timer
Display:	OLED
DMX Channels:	1
Included Cables:	Power Pro Cable
Included Remotes:	Timer / Wired

+ Remote for QubiQ Series

61065 Manual and timer control

QubiQ S2500 Smoke Machine

61062 High performance 2500 W smoke machine

The Showtec **QubiQ** S2500 is a professional 2500 W Smoke Machine. This fogger is reliable, safe and feature-rich. In addition, it has a practical and nice looking design. It will be your best smoking friend at small to large venues.

The smoke intensity is seamlessly adjustable from 0–100 %. Not only can you control the fogger manually, but also via DMX or included timer remote control.

The **QubiQ** S2500 is reliable since it can provide a continuous output and it has a comprehensive security. It has an accurate and reliable temperature control (double over temperature protection), as well as a sensor to know when the liquid is almost empty.

Special features:

- Reliable and safe due to temperature protection and liquid sensor
- Continuous and steady output till tank runs out of liquid
- Adjustable output level (0–100 %)
- Manual, (timer) remote and DMX control
- 2.3 L tank capacity
- 4.5 min warm-up time
- Including remote control with timer function

Technical Information:

Power Supply:	220V-240 VAC 50 Hz
Power Consumption:	2.500 W
Power Connector in:	Power Pro Blue
DMX Connector:	XLR 3P In/Out
Output Direction:	Forward
Housing:	Aluminum / Metal
Colour:	Black
Length (mm):	447 mm
Height (mm):	329 mm
Width (mm):	324 mm
Weight:	11,5 kg
Control Mode:	DMX / Manual / Remote / Timer
Display:	OLED
DMX Channels:	1
Included Cables:	Power Pro Cable
Included Remotes:	Timer / Wired

+ Remote for QubiQ Series

61065 Manual and timer control

QubiQ F1500 Fazer

61080 High performance 1500 W fazer

The Showtec **QubiQ** F1500 is a professional 1500 W fazer with a high airflow radial fan. This fazer is reliable, safe and feature-rich. In addition, it has a practical and nice looking design. It will be your best smoking friend at small to large venues.

The smoke intensity is seamlessly adjustable from 0–100 % with a sophisticated microcontroller for precise control. Not only can you control the fazer manually, but also via DMX or included timer remote control.

The **QubiQ** F1500 is reliable since it can provide a continuous output and it has a comprehensive security. It has an accurate and reliable temperature control (double over temperature protection), as well as a sensor to know when the liquid is almost empty.

Special features:

- Reliable and safe due to temperature protection and liquid sensor
- Continuous and steady output till tank runs out of liquid
- Adjustable output level (0–100 %)
- Manual, (timer) remote and DMX control
- 2.3 L tank capacity
- 4.5 min warm-up time
- Including remote control with timer function

Technical Information:

Power Supply:	220V-240 VAC 50 Hz
Power Consumption:	1,500 W
Power Connector in:	Power Pro Blue
DMX Connector:	XLR 3P In/Out
Heater:	1500 W
Warm-up Time:	4 min
Output Direction:	Forward
Housing:	Aluminum / Metal
Colour:	Black
Fluid Tank Capacity:	2,3 L
Length (mm):	386 mm
Height (mm):	330 mm
Width (mm):	415 mm
Weight:	15,1 kg
Control Mode:	DMX / Remote
Display:	OLED
DMX Channels:	2
Included Cables:	Power Pro Cable
Included Remotes:	Timer / Wired

+ Remote for QubiQ Series

61065 Manual and timer control
